PROFESSIONAL SUMMARY

Software Engineer specializing in backend development, AI-powered systems, and scalable APIs with hands-on experience in FastAPI, RAG pipelines, Docker, and cloud-based applications. Strong foundation in Linux environments, system design, and problem-solving. Passionate about building reliable software systems and contributing in collaborative global engineering teams.

SKILLS

Programming: Python, JavaScript, Typescript(Basics)
Frontend: HTML, CSS, React (Basic), React.js
Backend: FastAPI, Flask
Cloud & DevOps: Docker, AWS (Basic), Linux CLI, Shell Scripting (Basic)
AI / ML: RAG, LLM Integration (LLaMA, Groq), Prompt Engineering
Databases: MySQL, MongoDB
Vector DBs: Pinecone, ChromaDB
Tools: Git, REST APIs

PROJECTS

AI Log Threat Intelligence System

- Built a scalable RAG-based system for analyzing security logs and generating contextual threat summaries.
- Implemented vector search using Pinecone for efficient retrieval.
- Developed REST APIs using FastAPI for real-time processing.
- Reduced hallucination using structured prompting techniques.
- Designed system architecture for handling multiple concurrent requests

Enterprise AI Document Intelligence System

- Engineered full pipeline: document ingestion → embedding → retrieval → response generation.
- Built semantic search using ChromaDB and Pinecone.
- Integrated LangChain with LLM APIs for contextual responses.
- Improved response accuracy using guardrails and validation logic.
- Deployed user-friendly interface for non-technical users.

Heart Disease Prediction using Machine Learning

- Built ML models (Logistic Regression, Random Forest, SVM).
- Performed feature engineering and model optimization.
- Improved accuracy using cross-validation techniques.

EDUCATION

M.Tech – Computer Science Engineering in Information Security, Vellore Institute of Technology Aug '22 — Aug '24
(GPA: 7.02) Vellore

Bachelors in Electrical and Electronics Engineering, Ganadipathy Tulsi's Jain Engineering College Aug '18 — Jun '22
(GPA: 7.80) Vellore

CERTIFICATIONS

UI UX Designing, School of Techies

Aug '25
